

Iluminação

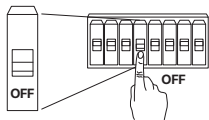

MANUAL DE INSTALAÇÃO

VIGO PRO ORIENTÁVEL EMBUTIR

Iluminação

1 - Desligue a rede antes de realizar a instalação;

2 - Faça o recorte no forro utilizando a medida correspondente ao modelo.

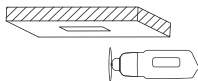

RECORTE:

2W - 45mmX50mm

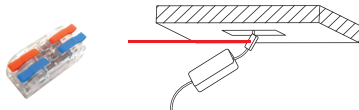

4W - 45mmX75mm

6W - 45mmX104mm

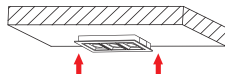

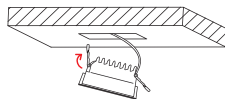

10W - 45mmX146mm

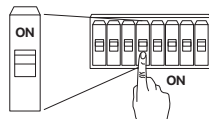

3 - Conecte o driver que acompanha o produto na rede elétrica (Indicamos o uso do Conector de emenda PIX);

4 - Eleve as molas para encaixar o Vigo Pro Orientável no recorte realizado, primeiramente um lado e posteriormente o outro;

5 - Ligue a rede elétrica e pronto! Seu Vigo Pro está pronto para iluminar o ambiente!
